

# Gagan Yadav

Pune, Maharashtra, India

+91 8765267172 — gaganyadav2094@gmail.com

GitHub — LeetCode — HackerRank

## Professional Summary

---

Motivated and enthusiastic B.Tech Computer Science Engineering (Artificial Intelligence & Machine Learning) student with strong foundations in Full-Stack Web Development, Machine Learning, and Software Engineering. Experienced in building responsive web applications, REST APIs, AI-powered solutions, and deploying applications using modern development tools. Passionate about Artificial Intelligence, Large Language Models (LLMs), research in AIML, and solving real-world problems through technology. Continuously improving problem-solving skills through Data Structures and Algorithms practice in Java.

## Education

---

### G H Rasoni College of Engineering and Management, Wagholi, Pune

Bachelor of Technology (B.Tech) in Computer Science Engineering (Artificial Intelligence & Machine Learning)

2023 – Present

**CGPA: 7.8**

## Technical Skills

---

**Programming Languages:** Python, Java, JavaScript, HTML5, CSS3

**Frontend Development:** React.js, Tailwind CSS, Responsive Web Design

**Backend Development:** Node.js, Express.js, FastAPI

**Databases:** MongoDB, MySQL, PostgreSQL (Basic)

**Artificial Intelligence & Machine Learning:** Machine Learning, Data Analysis, Model Development, NLP Fundamentals, Prompt Engineering, AI Workflow Integration

**Tools & Platforms:** Git, GitHub, Docker, Postman, VS Code, Jupyter Notebook

**Core Computer Science:** Data Structures and Algorithms (Java), Object-Oriented Programming (OOP), Database Management Systems (DBMS), Computer Networks, REST APIs

## Projects

---

### AI-Powered Sentiment Analysis Engine

- Developed an end-to-end sentiment analysis platform using Machine Learning and Natural Language Processing.
- Built scalable backend APIs using FastAPI and integrated them with a React frontend.
- Utilized Hugging Face Transformer models for sentiment prediction.
- Containerized the application using Docker for deployment and portability.
- Implemented API-driven architecture and real-time prediction workflows.
- Tech Stack: Python, FastAPI, React.js, Docker, Hugging Face Transformers.

### Diabetes Prediction Model

- Built a machine learning model to predict diabetes risk using healthcare datasets.
- Performed data preprocessing, feature selection, model training, and evaluation.
- Applied machine learning concepts to solve a real-world healthcare problem.
- Tech Stack: Python, Pandas, NumPy, Scikit-Learn, Jupyter Notebook.

## Event Registration System

- Designed and developed a web-based event registration platform for managing participant registrations.
- Implemented form validation, user-friendly interfaces, and efficient data handling.
- Improved registration workflow through structured data management.
- Tech Stack: HTML, CSS, JavaScript, Database Integration.

## Relevant Coursework

---

Data Structures and Algorithms, Machine Learning, Database Management Systems, Computer Networks, Object-Oriented Programming, Software Engineering, Web Development

## Achievements & Activities

---

- Active problem solver on LeetCode and HackerRank platforms.
- Regularly practice Data Structures and Algorithms using Java.
- Developed multiple academic and personal software projects.
- Continuously learning modern Full-Stack Development and AI technologies.

## Certifications

---

### Complete Data Science, Machine Learning, DL, NLP Bootcamp

Udemy — Instructor: Krish Naik, KRISHAI Technologies Private Limited

Completed: May 26, 2026 — Duration: 99 hours

Certificate: UC-64c0f3d7-8305-4c6f-803d-2393ad6e730a

## Research Interests

---

Artificial Intelligence, Machine Learning, Generative AI, Large Language Models (LLMs), Natural Language Processing, AI-Powered Applications, Intelligent Automation Systems

## Soft Skills

---

- Fast Learner
- Strong Problem-Solving Ability
- Effective Time Management
- Team Collaboration
- Communication Skills
- Adaptability and Continuous Learning
- Self-Motivated and Growth-Oriented

## Hobbies

---

Cricket, Reading Technology Blogs, Creative Designing, Exploring Emerging Technologies, AI Research
